

Mosquito Control Toolkit

Tools to avoid getting bitten!

Repellent

Use products with active ingredient Deet, Picaridin, Lemon or Eucalyptus or IR3535 when outside.
Apply according to label directions.

Eyes

Search your home & yard for standing water (bottles, flowerpots, buckets, tires).
Dump them out and flip over.

Protective Clothing

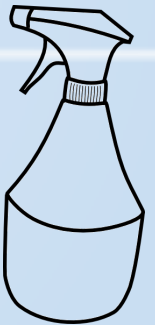

Wear light-colored long-pants, long-sleeves, shoes & socks when outside.

Spray Bottle

Fill a spray bottle with 1 tablespoon liquid dishwashing detergent & 16 oz water.

Spray water-holding plants & any standing water weekly.

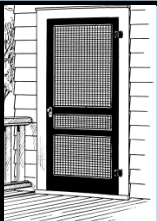

Permethrin

Permethrin can be sprayed on clothes to repel mosquitoes 24-48 hours before use.

Screens

Make sure your window & door screens are in good condition.

Larvicide & Fish

Use mosquito dunks or bits (found at hardware stores) to treat ponds & unused pools.

Place mosquito fish in ponds.
